# THE SOFT GLAM

## IDEA & CONCEPT

My aim was to create sumptuous comfort within a warm and spacious open plan lay-out.

Natural tones with printless fabrications and fancy décor extras that achieve a glamorous look, brought my vision to life. My attention to details, textures, and finishes made this composition to a cohesive and exquisite design.

The customized modern and functional chaise lounges placed in an extra space giving an ultimate cozy feeling. The key elements which bring this look together with success are giving a warm but at the same time very sophisticated vibe.
