PROJECT TYPE: OFFICE SPACE

SPCAE: 1,076 sqft

THE RACE

DID YOU EVER MEET YOUR EXPECTATIONS IN ONLY 10 DAYS?

IDEA & CONCEPT

My aim with any office design is to be consistent with the company's business profile. In this case, an interactive company. To obtain this effect, I created a very modern and functional office space. The bold color palette was the right match for an aesthetically pleasing works space characterized by an original interior with décor extras that serve a dual purpose

Since I couldn't brighten up the space with natural sunlight, a lot of plants were incorporated as natural elements for a biophilic touch. The Idea was to increase productivity and make the workplace more appealing,

I was lucky to meet all the expectations within 10 days, starting from the inquiry till the first business meeting at the office. I made success a must.
